My objective is to expand my knowledge in the field of Visual Communications. Growing up, I have always been into art, especially drawing in sketchbooks. As I got older, drawings turned into various types of mediums that includes sculpturing, painting, and graphic design. As a young kid, I was more drawn to subjects from nature, such as animals and wildlife, but I continued to challenge my mind and expanded my creativity. Now, my works consist of the three C's: Color, Culture, and Comprehensiveness. Many of my projects show vibrant colors to bring art to life. Different cultures and religions are the foundational themes found in my work. Emphasis on Comprehensiveness is important to me, and I ensure to highlight my works context and background.
